

Marenco Swiss Helicopter to offer Sagem Avionics ICDS-8A glass cockpit in SKYe SH-09 Helicopter

HAI – Heli-Expo – Orlando, March 2nd, 2015

Marenco Swiss helicopter (MSH) has selected the Sagem Avionics ICDS-8A Glass Cockpit suite as part of the standard avionics/instrument package for their new SKYe SH-09 helicopter.

Developed and produced by Sagem Avionics (part of Sagem – Safran), the ICDS 8A Primary Flight Display & Engine Monitoring System increases situational awareness through customizable engine displays with intuitive LED interfaces. It incorporates many features including a fully configurable user defined checklist, display of primary flight and navigational information, engine management data, pop-up engines with display in split map/engine screen mode, display of external mount camera & VGA inputs, and custom user databases (operators can supply data points for moving map). The ICDS 8A will also record all displayed data for later review and analysis.

Martin Stucki, CEO of Marenco Swiss Helicopter, states “*we are very pleased to have a modern avionics suite from Sagem which supports the overall innovation of the aircraft in general and the ease of use for the pilot in particular. Sagem is the ideal partner also for future avionics enhancements*”.

Thierry Derrien, President & CEO of Sagem Avionics, LLC stated “*Sagem is very pleased to be a part of the SKYe SH-09 helicopter with its glass cockpit suite. We are committed to ensuring that Marenco has a robust and reliable system onboard the aircraft.*”

About Marenco Swisshelicopter

***Marenco Swisshelicopter Ltd** was founded in 2007 by a small team of helicopter experts around Martin Stucki for the direct purpose of developing, building and commercializing a new concept of light turbine helicopter. With this industrial visionary concept, Marenco Swisshelicopter Ltd developed a new generation helicopter in the 2.5 metric ton class to combine a full-composite fuselage, an advanced bearing-free rotor system with 5-blades, an electronically governed engine and a glass-cockpit, SKYe SH09 embodies the future of helicopter.*

About Sagem Avionics, LLC

Sagem Avionics, LLC, a company incorporated in the US with headquarters in Dallas, Texas is a wholly owned subsidiary of Sagem, a Safran group company. Sagem Avionics, LLC provides high quality avionics products and services to Part 23, 25, 27, and 29 aircraft and helicopters. These include technical support, MRO services, and marketing and sales of Sfim, Arnav, Aviac and Sagem commercial aerospace products including integrated cockpit display systems, helicopter autopilot systems, flight control components, aircraft condition and monitoring systems, and flight operations quality assurance software.
