Philippe Harache appointed new Chairman of the Board of Marengo Swisshelicopter

Mollis, June 9th, 2015

Marengo Swisshelicopter is very proud to announce the appointment of Mr. Philippe Harache as new Chairman of the Board.

Philippe Harache is a French aerospace engineer and entrepreneur, he is a graduate of the Institut Polytechnique des Sciences Avancées, INSEAD and Harvard Business School as well as a graduate from the French National Defence College (IHEDN).

After starting his career at the Helicopter Division of Aerospatiale, he participated in the foundation of Eurocopter and was nominated in 1994 CEO of Eurocopter International. Philippe Harache later became Senior Executive Vice President of the group, a position which he retained until 2010, when he left to pursue an active role in the start-up of dynamic and innovative companies.

In selecting Philippe Harache as Chairman of the Board of Directors, Martin Stucki, founder of the company, chose an expert he said has strategic vision and who can support the company with his know how and network.

Martin Stucki added « With the on-going advancement and structuration of the company, the arrival of Philippe is a great opportunity that will ensure our success and bring assurance to our strategic and commercial expansion ».

Philippe Harache added « I am delighted to join the team that has one of the most innovative helicopter projects in its hands, which I could say is no longer at the project stage but well advanced in its development ».

Ludwig Boogen will retire as Chairman of the Board and remain active in his multiple professional activities as an interim manager and Managing Partner of Top Fifty AG. Based on his experience in the aviation industry and as CFO he provided significant support to the start-up since early 2011.

Martin Stucki commented that « Marengo Swisshelicopter has strongly benefited from the professionalism and unlimited motivation of Ludwig Boogen, during his chairmanship ».

About the SKYe SH09 helicopter:

With a Maximum Take-Off Weight of 2,650 kg (5,842 lbs) the **SKYe SH09** helicopter offers exceptional hot and high performance, a low noise signature thanks to the newly developed dynamic assemblies and shrouded tail-rotor.

The modularity of the cabin makes the most of the flat floor and the unique high ceiling concept, offering multiple seating arrangements of 1 Pilot + up to 7 passengers, all with individual crashworthy seats. The rear access to the cabin is facilitated by the large clamshell doors; addressing the passenger transport and emergency evacuation roles of the helicopter.

With a fast cruise speed of 260 km/h (140 knots) it will also offer very long range - in excess of 800km (430 nautical miles) with standard fuel tanks. **SKYe SH09** is of particular interest to operators who wish to avail of a remarkably versatile machine with additional power, greater payload capacity, and an augmented sling load capability of 1,500 kg (3,300 lbs).

About MARENCO SWISSHELICOPTER (MSH):

The **MARENCO SWISSHELICOPTER COMPANY** is the result of combining the engineering expertise of **Marengo Ltd.** and a team of highly qualified helicopter specialists, pilots and aviation experts. **Marengo Swisshelicopter Ltd.** was founded in 2007 for the direct purpose of developing, building and commercializing new concepts of light turbine helicopters. With this industrial visionary concept, **Marengo Swisshelicopter** developed a new generation of helicopter built with a design that concentrates on the key notion of competitive superiority, modularity, advanced ergonomics and with the integration of the best choice of materials.
