Marengo Swisshelicopter

announces 2nd commitment from Rotorworld LLC
for an additional SKYe SH09 helicopter

Louisville, KY, March 2nd, 2016

While the first Letter of Intent was signed in 2014, Daniel Romero and Barbara Duffy reiterate their interest in the SH09 by increasing their orders with the specific target to position the aircraft for operations in Costa Rica.

Based in Florida, USA, Rotorworld specializes in sales of new & pre-owned helicopters and jets including advertising and marketing to private and corporate clients domestic and internationally. The company has vast experience in dealing with manufacturers as well as different distributors.

Rotorworld has built a strong reputation on the market and Marengo Swisshelicopter is motivated that their clients are expressing interest in the product and considering the high level of performance to serve their demanding operations.

Mathias Sénès, Chief Commercial Officer comments: "this renewal of confidence demonstrates the vision and dynamic spirit of Barbara and Daniel. We are proud to be on their radar!".

SKYe SH09

A Swiss made helicopter

Communiqué de Presse – Presse Informationen – Press Release – Comunicado de Presse

About the SKYe SH09 helicopter:

With a Maximum Take-Off Weight of 2,650 kg (5,842 lbs) the **SKYe SH09** helicopter offers exceptional hot and high performance, a low noise signature thanks to the newly developed dynamic assemblies and shrouded tail-rotor.

The modularity of the cabin makes the most of the flat floor and the unique high ceiling concept, offering multiple seating arrangements of 1 Pilot + up to 7 passengers, all with individual crashworthy seats. The rear access to the cabin is facilitated by the large clamshell doors; addressing the passenger transport and emergency evacuation roles of the helicopter.

With a fast cruise speed of 260 km/h (140 knots) it will also offer very long range - in excess of 800 km (430 nautical miles) with standard fuel tanks. **SKYe SH09** is of particular interest to operators who wish to avail of a remarkably versatile machine with additional power, greater payload capacity, and an augmented sling load capability of 1,500 kg (3,300 lbs).

About MARENCO SWISSHELICOPTER (MSH):

The **MARENCO SWISSHELICOPTER COMPANY** is the result of combining the vision of our investors, the engineering expertise of Martin Stucki and a team of highly qualified helicopter specialists, pilots and aviation experts. **Marengo Swisshelicopter Ltd.** was founded in 2007 for the direct purpose of developing, building and commercializing new concepts of light turbine helicopters. With this industrial visionary concept, **Marengo Swisshelicopter** developed a new generation of helicopter built with a design that concentrates on the key notion of competitive superiority, modularity, advanced ergonomics and with the integration of the best choice of materials.
