

SKYe SH09

A Swiss made helicopter

Communiqué de Presse – Presse Informationen – Press Release – Comunicado de Presse

**Sauter Bachmann AG signs cooperation agreement with
Marengo Swisshelicopter
Multi-year cooperation planned**

Louisville, 2 March 2016

At the HAI HELI-EXPO 2016 helicopter exhibition in Louisville, Kentucky, the two Swiss companies, Sauter Bachmann AG from Netstal and Marengo Swisshelicopter from Mollis signed a multi-year cooperation agreement.

Specialist of precision gears and gearboxes for the Aerospace industry, Sauter Bachmann AG is responsible for the supply of transmission parts of the main and tail rotor for the SKYe SH09.

Andrea Girola, CEO of Sauter, Bachmann: “We have put a lot of energy and passion in this programme and are pleased and proud that we were able to qualify as a supplier of Marengo Swisshelicopter.”

Martin Stucki, CEO of Marengo Swisshelicopter: “Sauter Bachmann is involved since the beginning of the programme development. Through close collaboration, parts can be continuously optimized on development time and production. This good cooperation during development has now led to a long-term supply agreement. It is a proof of success for the Swiss engineering industry if we can buy such key components in Switzerland.

SKYe SH09

A Swiss made helicopter

Communiqué de Presse – Presse Informationen – Press Release – Comunicado de Presse

About the SKYe SH09 helicopter:

With a Maximum Take-Off Weight of 2,650 kg (5,842 lbs) the **SKYe SH09** helicopter offers exceptional hot and high performance, a low noise signature thanks to the newly developed dynamic assemblies and shrouded tail-rotor.

The modularity of the cabin makes the most of the flat floor and the unique high ceiling concept, offering multiple seating arrangements of 1 Pilot + up to 7 passengers, all with individual crashworthy seats. The rear access to the cabin is facilitated by the large clamshell doors; addressing the passenger transport and emergency evacuation roles of the helicopter.

With a fast cruise speed of 260 km/h (140 knots) it will also offer very long range - in excess of 800 km (430 nautical miles) with standard fuel tanks. **SKYe SH09** is of particular interest to operators who wish to avail of a remarkably versatile machine with additional power, greater payload capacity, and an augmented sling load capability of 1,500 kg (3,300 lbs).

About MARENCO SWISSHELICOPTER (MSH):

The **MARENCO SWISSHELICOPTER COMPANY** is the result of combining the vision of our investors, the engineering expertise of Martin Stucki and a team of highly qualified helicopter specialists, pilots and aviation experts. **Marengo Swisshelicopter Ltd.** was founded in 2007 for the direct purpose of developing, building and commercializing new concepts of light turbine helicopters. With this industrial visionary concept, **Marengo Swisshelicopter** developed a new generation of helicopter built with a design that concentrates on the key notion of competitive superiority, modularity, advanced ergonomics and with the integration of the best choice of materials.

About SAUTER BACHMANN AG

Sauter Bachmann was founded in 1922 and grew from a family company located in the canton of Glarus in Switzerland. The firm develops and produces high quality precision gears, high performance gearboxes and complex transmission systems for the Aerospace industry.
